Karan Johar's lifelong dream to become a daddy has finally been fulfilled as he has now become a single parent of twins – a girl and a boy, whom he has named Roohi and Yash.

KJo shared the good news on Twitter and also mentioned how his kids are now his world and priority! He called them his "lifelines".

"I am ecstatic to share with you all the two most wonderful additions to my life, my children and lifelines; Roohi and Yash. I feel enormously blessed to be a parent to these pieces of my heart who were welcomed into this world with the help of the marvels of medical science.

This was an emotional yet well thought out decision which I have taken after considering all the responsibilities and duties that come with being a parent. In order to arrive at this decision, I have prepared myself mentally, physically, emotionally and logistically to ensure that my children get all the unconditional love, care and attention from me and mine. I have submitted to the fact that my children are my world and priority. My work, travels and social commitments would have to take a back seat and I am prepared for that. By the grace of God, I have the most caring and supportive mother who will be an integral part in the up-bringing of her grandchildren and of course, friends who are family.

I am eternally grateful to the surrogate who has fulfilled my lifelong dream and provided a warm, loving and nurturing environment to my children before bringing them into this world. She will always remain in my prayers.

Finally a big thank you to Dr. Jatin Shah for his guidance and

In his book "An Unsuitable Boy", released this year, Karan had expressed a desire to adopt a child or go for surrogacy.

The filmmaker, who keeps travelling around the world, understands that having children would mean that "work, travels and social commitments would have to take a back seat".

Karan extended gratitude to IVF specialist Jatin Shah, who was also instrumental in the successful birth of superstar Shah Rukh Khan and his wife Gauri's son AbRam through surrogacy.
