We've woken to such happy news this Sunday! Director and our beloved Koffee With Karan host, Karan Johar just tweeted that he has become father to twins, born via surrogacy! "I am ecstatic to share with you all the two most wonderful additions to my life, my children and lifelines: Roohi and Yash, " writes KJO.

This was an emotional yet well thought out decision which I have taken after considering all the responsibilities and duties that come with being a parent. In order to arrive at this decision, I have prepared myself mentally, physically, emotionally and logistically to ensure that my children get all the unconditional love, care and attention from me and mine. I have submitted to the fact that my children are my world and priority. My work, travels and social commitments would have to take a back seat and I am prepared for that. By the grace of God, I have the most caring and supportive mother who will be an integral part in the up-bringing of her grandchildren and of course, friends who are family.

The babies were born last month in Masrani Hospital in Andheri, Mumbai, which is also where Shah Rukh Khan's third child AbRam was also delivered by a surrogate, incidentally. According to TOI, the births were registered on February 24. This is the whole statement, FYI.

“I am ecstatic to share with you all the two most wonderful additions to my life, my children and lifelines; Roohi and Yash. I feel enormously blessed to be a parent to these pieces of my heart who were welcomed into this world with the help of the marvels of medical science.

This was an emotional yet well thought out decision which I have taken after considering all the

myself mentally, physically, emotionally and logistically to ensure that my children get all the unconditional love, care and attention from me and mine. I have submitted to the fact that my children are my world and priority.

My work, travels and social commitments would have to take a back seat and I am prepared for that. By the grace of God, I have the most caring and supportive mother who will be an integral part in the up-bringing of her grandchildren and of course, friends who are family.

I am eternally grateful to the surrogate who has fulfilled my lifelong dream and provided a warm, loving and nurturing environment to my children before bringing them into this world. She will always remain in my prayers.

Finally, a big thank you to Dr. Jatin Shah for his guidance and support and for being like a family member through this wonderful and exciting journey."

How lovely that he named his son after his late father, Yash Johar. It's so wonderful that science has enabled Mr. Johar (and so many others across the world unable to have a child for various reasons) to become a father and we're sure he's going to be a wonderful one. So does others in the film fraternity, it seems, from the tweets below!
